<!-- goktext.dtd: GOK minimal text file description V1.7 -->
<!ELEMENT goktext (section+)>
<!-- this is a very unconstrained definition of what has been coded
so far, one way or another; Even this rather Liberal DTD, however,
should be enough to catch a number of errors and
inconsistencies. NOTE that section is now a required child-element of
tecttext so as to link to the relevant sections in the header files.
